

## Edit Update

The following edits will be implemented as warnings on 4/2/2006. They will change to rejects beginning 7/1/06.

### Dental

#### **A543 – Length of NPI value is invalid**

Logic – If 2010AA- NM108 (Identification Code Qualifier) = XX, then 2010AA- NM109 (NPI number) must be 10 digits in length.

Note: This edit will apply to all loops where NPI information may be reported.

#### **A544 – NPI value contains a non-numeric value**

Logic – If 2010AA- NM108 (Identification Code Qualifier) = XX, then 2010AA- NM109 (NPI number) must be contain numeric value

Note: This edit will apply to all loops where NPI information may be reported.

#### **A545 – 1<sup>st</sup> digit of NPI value not 1,2,3 or 4**

Logic – If 2010AA- NM108 (Identification Code Qualifier) = XX, then 2010AA- NM109 (NPI number) must contain 1,2,3,or 4 as first digit

Note: This edit will apply to all loops where NPI information may be reported.

### Institutional

#### **A543 – Length of NPI value is invalid**

Logic – If 2010AA- NM108 (Identification Code Qualifier) = XX, then 2010AA- NM109 (NPI number) must be 10 digits in length.

Note: This edit will apply to all loops where NPI information may be reported.

#### **A544 – NPI value contains a non-numeric value**

Logic – If 2010AA- NM108 (Identification Code Qualifier) = XX, then 2010AA- NM109 (NPI number) must be contain numeric value

Note: This edit will apply to all loops where NPI information may be reported.

#### **A545 – 1<sup>st</sup> digit of NPI value not 1,2,3 or 4**

Logic – If 2010AA- NM108 (Identification Code Qualifier) = XX, then 2010AA- NM109 (NPI number) must contain 1,2,3,or 4 as first digit

Note: This edit will apply to all loops where NPI information may be reported.

#### **A546 – 2430-DTP required when 2430-SVD is present**

Logic – If the 2430-SVD segment is present, then the 2430-DTP segment must also be present.

### Professional

#### **A543 – Length of NPI value is invalid**

Logic – If 2010AA- NM108 (Identification Code Qualifier) = XX, then 2010AA- NM109 (NPI number) must be 10 digits in length.

Note: This edit will apply to all loops where NPI information may be reported.

**A544 – NPI value contains a non-numeric value**

Logic – If 2010AA-NM108 (Identification Code Qualifier) = XX, then 2010AA-NM109 (NPI number) must be contain numeric value

Note: This edit will apply to all loops where NPI information may be reported.

**A545 – 1<sup>st</sup> digit of NPI value not 1,2,3 or 4**

Logic – If 2010AA-NM108 (Identification Code Qualifier) = XX, then 2010AA-NM109 (NPI number) must contain 1,2,3,or 4 as first digit

Note: This edit will apply to all loops where NPI information may be reported.
