Aqua machine	
Bair Hugger Blankets	
Band-aids	
Bed alarms	
Bed pans	
Bed rails	
Bed scale	
Beds, specialty	Also, see <i>Mattresses, specialty</i>
Bladder scanner	The charge for the equipment should be included in the charge for the test.
Blue Pads	
Breast pump	Breast pumps provided to a patient, which are subsequently taken home with the patient, are considered a patient convenience item. They should be billed to the patient under revenue code 990.
C-Arm	
Cameras/Video equipment	
Canes	
Crutches – inpatient	
Crutches – outpatient	This is considered a DME item. The facility must be a DME provider and must bill to Blue Shield on a CMS 1500.

Equipment/Supplies	Comments
Daily aspirator rental	
Defibrillator	Defibrillators permanently housed or stored in a room or ancillary department are <u>not</u> separately chargeable.
Diapers, adult	
Diapers, baby	
Drapes, covers	
Electrodes-Physical Therapy	When used in physical therapy the electrodes should be bundled into the modality provided. The cost of supplies (e.g., theraband, hand putty, electrodes) used in furnishing covered therapy care is included in the payment for the HCPCS codes billed by the physical therapist, and are, therefore, not separately billable.

Equipment/Supplies	Comments
Warming blankets	
Wipes (adult wash cloths)	
X-ray copies when sent with patient	

Procedure Descriptions	Comments
Catheter care - inpatient	Considered part of routine nursing services
IV flush, IV care, IV administration - inpatient	A procedural charge for an IV flush and /or administration cannot be billed separately. This is considered a routine cost. However, the materials and supplies used for the IV flush and administration can be charged separately.
IV flush - outpatient	The materials and supplies used for the IV flush can be charged separately. A procedure charge for an IV flush can be made if IV drugs were not administered.
Lab call back	This is an administrative expense; no separate charge can be made.
Labor induction	The labor and delivery room charge includes induction.
Newborn nursing observation	
Oxygen setup or administration	This is a service that can be done by nursing staff. If a hospital chooses to have RT perform the service, this does not make it billable. A separate charge should not be made.
Point of Care Testing	
Prep time for bone marrow aspirations	
Radiology call back	This is an administrative expense; no separate charge can be made.
Respiratory treatments by nursing staff - inpatient	
Specimen handling and processing fees	This is an administrative expense; no separate charge can be made
Stat charges or call back charges	
Tracheostomy Care or suction - inpatient	When provided by nursing, this is a routine service. When provided by RT, it is billable.
Transfusion reaction investigation charges
