

## Revenue Code Manual and Institutional Provider Manual

Blue Cross and Blue Shield currently has a link to the Revenue Code Manual as we knew it when we were the Medicare Intermediary. We can no longer provide that manual to facilities on our website, so we are in the process of updating the manual which will include ONLY BLUE CROSS INFORMATION AND BILLING GUIDES. The plan was for this manual to be ready by this All Payers meeting, however, there are new CPT/HCPC codes that will be effective at the beginning of 2009 and those codes will be added to this manual. We will notify you when it is included on the website.

Likewise, we are also revising the Institutional Provider Manual. Our new Education Coordinator, Cindy Garrison will be undertaking this task and again, we will notify you when the revised manual is ready as another tool to assist you with Blue Cross issues.
