

Valid Blue Cross and Blue Shield of Kansas Prefixes.

XSA	HEH	USF
XSB	PMT	ICS
XSC	FLY	GIB
XST	PHF	LFS
XSF	ARX	NFP
XSE	KSE	PBT
XSM*	IPH	TOE
XSP	PBT	KGS
LSR	KBC	
RAO	TSF	
XSV	CBD	

Prefix goes in positions 1237-1239 on the file layout.

This list is dynamic. It is recommended that the list be table driven with client/user update capability rather than hard coded into the system.

Federal Blue Cross patients do not have a prefix. Their number begins with an 'R' and is followed by 8 numeric characters ie 'R12345678'. The entire Federal number (including the R) should go in positions 1240-1251. \*\*Federal Blue Cross patients should be BL pay status in position 153-154.\*\*

RAO is a prefix and should start in position 1237, not 1240.

Walmart Blue Cross patients formerly did not have a prefix - only 9 numeric characters. Now they have a WMW prefix. The pay status (positions 153-154) for Walmart Blue Cross patients should be coded as NK - Non-Kansas Blue Cross and Blue Shield patients.

If a prefix is not in this list and the patient has Blue Cross, the Pay Status needs to be NK.

\* XSM can only be a secondary payor ID number - It should never be primary
