State and Federal mandates and health plan member contract language, including specific provisions/exclusions, take precedence over Medical Policy and must be considered first in determining eligibility for coverage. To verify a member's benefits, contact [Blue Cross and Blue Shield of Kansas Customer Service](#).

The BCBSKS Medical Policies contained herein are for informational purposes and apply only to members who have health insurance through BCBSKS or who are covered by a self-insured group plan administered by BCBSKS. Medical Policy for FEP members is subject to FEP medical policy which may differ from BCBSKS Medical Policy.

The medical policies do not constitute medical advice or medical care. Treating health care providers are independent contractors and are neither employees nor agents of Blue Cross and Blue Shield of Kansas and are solely responsible for diagnosis, treatment and medical advice.

If your patient is covered under a different Blue Cross and Blue Shield plan, please refer to the Medical Policies of that plan.

DESCRIPTION

Eye movement desensitization and reprocessing (EMDR) therapy is a complex method of psychotherapy that combines a range of therapeutic approaches with eye movements or other forms of rhythmical stimulation (eg, sound and touch) in ways that stimulate the brain's information processing system. Eye movement desensitization and reprocessing was introduced in 1989 as a treatment for post-traumatic stress disorder (PTSD). Since then, it has been proposed as a treatment of various psychiatric and behavioral disorders including phobias, panic and anxiety disorders, as well as eating disorders.

POLICY

- A. EMDR is considered a valid therapy component when provided during a psychotherapy session for Acute Stress Disorder or Post Traumatic Stress Disorder.
- B. EMDR is considered **experimental / investigational** as a stand alone service.

CODING

The following codes for treatment and procedures applicable to this policy are included below for informational purposes. Inclusion or exclusion of a procedure, diagnosis or device code(s) does not constitute or imply member coverage or provider reimbursement. Please refer to the member's contract benefits in effect at the time of service to determine coverage or non-coverage of these services as it applies to an individual member.

CPT/HCPCS

- 90832 Psychotherapy, 30 minutes with patient and/or family member
- 90833 Psychotherapy, 30 minutes with patient and/o family member when performed with an evaluation and management service (List separately in addition to the code for primary procedures.
- 90834 Psychotherapy, 45 minutes with patient and/or family
- 90836 Psychotherapy, 45 minutes with patient and/or family member when performed with an evaluation and management services (List separately in addition to the code for primary procedure)
- 90837 Psychotherapy, 60 minutes with patient and/or family member
- 90838 Psychotherapy, 60 minutes with patient and/or family member when performed with an evaluation and management service (List separately in addition to the code for primary procedure)
- 90899 Unlisted psychiatric service or procedure

- CPT code 90834 should be used when EMDR is used as a therapy component provided during a psychotherapy session for Acute Stress Disorder or Post Traumatic Stress Disorder. When billed on a CMS-1500 claim form, if 90899 is billed with 90834 it will be considered content of service.
- CPT code 90899 should be used when EMDR is used as a stand alone service.

ICD-10 Diagnoses

These diagnoses are otherwise subject to medical policy as stated above.

- F43.0 Acute stress reaction
- F43.11 Post-traumatic stress disorder, acute
- F43.12 Post-traumatic stress disorder, chronic
