Which doctors, hospitals, and pharmacies can I use?

Blue Cross and Blue Shield of Kansas has a network of doctors, hospitals, pharmacies, and other providers. As a result, you may pay less for your covered benefits. However, you may also use providers that are not in our network.

Generally, you must use pharmacies in our network to fulfill your prescriptions for covered Part D Drugs.

Please call 866-943-4144 (TTY:711) or see your Evidence of Coverage for more information, including the cost-sharing that applies to out-of-network services.

What drugs are covered?

We cover Part D drugs. In addition, we cover Part B drugs such as chemotherapy and some drugs administered by your provider.

You can see the complete plan Formulary (list of Part D prescription drugs) and any restrictions on our website, bcbsks.com/medicare.

Or, call us and we will send you a copy of the Formulary.

How will I determine my drug costs?

Our plans group each medication into one of five “tiers.” You will need to use your formulary to locate what tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug’s tier, day supply, and what stage of the benefit you have reached. Later in this document, we discuss the benefit stages that occur: Deductible, Initial Coverage and Catastrophic Coverage. If you have questions about the different benefit stages, please contact the Plan for more information or access the Evidence of Coverage.

Pre-Enrollment Checklist

Before making an enrollment decision, it is important that you fully understand our benefits and rules. If you have any questions, you can call and speak to a Customer Service Representative at 866-943-4144 (TTY: 711).

Understanding the Benefits

- ☐ The Evidence of Coverage (EOC) provides a complete list of all coverage and services. It is important to review plan coverage, costs, and benefits before you enroll. Visit bcbssk.com/medicare/forms or call 866-943-4144 to view a copy of the EOC.
- ☐ Review the provider directory (or ask your doctor) to make sure the doctors you see now are in the network. If they are not listed, it means you will likely have to select a new doctor.
- ☐ Review the pharmacy directory to make sure the pharmacy you use for any prescription medicine is in the network. If the pharmacy is not listed, you will likely have to select a new pharmacy for your prescriptions.
- ☐ Review the formulary to make sure your drugs are covered.

Understanding Important Rules

- ☐ In addition to your monthly plan premium, you must continue to pay your Medicare Part B premium. This premium is normally taken out of your Social Security check each month.
- ☐ Benefits, premiums and/or copayments/coinsurance may change on January 1, 2027.
- ☐ Except in emergency or urgent situations, we do not cover services by out-of-network providers (doctors who are not listed in the Provider Directory).
- ☐ Our plan allows you to see providers outside of our network (non-contracted providers). However, while we will pay for covered services provided by a non-contracted provider, the provider must agree to treat you. Except in an emergency or urgent situations, non-contracted providers may deny care. In addition, you will pay a higher co-pay for services received by non-contracted providers.
- ☐ Effect on Current Coverage. If you are currently enrolled in a Medicare Advantage plan, your current Medicare Advantage healthcare coverage will end once your new Medicare Advantage coverage starts. If you have Tricare, your coverage may be affected once your new Medicare Advantage coverage starts. Please contact Tricare for more information. If you have a Medigap plan, once your Medicare Advantage coverage starts, you may want to drop your Medigap policy because you will be paying for coverage you cannot use.
