Benefits of Blue

You're covered in Kansas

BlueCare EPO plans will access the Solutions provider network that has you covered throughout our 103-county coverage area (excluding Johnson and Wyandotte) within the state of Kansas.

The provider network allows you access to your choice of medical and preventive care providers and pharmacy locations.

Our dominant network size provides members access to discounted fees with hospitals and providers in our network — and that means savings for you.

Please remember, you have no coverage for services provided outside of the provider network with the exception of medical emergencies. If you receive services from an out-of-network doctor or other healthcare provider, you will be held responsible to pay all of the costs for the services.

Emergency coverage

If emergency care is needed — even outside of the Solutions provider network — you can go to the nearest hospital and still receive the maximum benefits of your plan.

Our secure member portal puts you in control. It's your one-stop shop for understanding, managing and maximizing your health insurance benefits. Review your benefits, track claims and get access to Strive, Blue365, mental health resources and SmartShopper®.

Referrals

See the specialist you prefer within the Solutions provider network without having to see a primary care physician (PCP) first.

Referrals to a provider outside of the network cannot be made by your doctor or hospital. **Referrals to non-network providers must be approved by Blue Cross and Blue Shield of Kansas** and are only considered when the services are not available from an in-network provider. Out-of-network providers are those that do not contract inside the state and all providers outside of our 103-county coverage area within the state of Kansas.
