Benefits of Blue

You're covered in Kansas

BlueCare EPO plans will access the Solutions provider network that has you covered throughout our 103-county coverage area (excluding Johnson and Wyandotte) within the state of Kansas.

The provider network allows you access to your choice of medical and preventive care providers and pharmacy locations.

Our dominant network size provides members access to discounted fees with hospitals and providers in our network — and that means savings for you.

Please remember, you have no coverage for services provided outside of the provider network with the exception of medical emergencies. If you receive services from an out-of-network doctor or other healthcare provider, you will be held responsible to pay all of the costs for the services.

Emergency coverage

If emergency care is needed – even outside of the Solutions provider network – you can go to the nearest hospital and still receive the maximum benefits of your plan.

Referrals
